

The Mitigation Layer

Scatter-shot job postings lead to 80% irrelevant applications and high recruiter burnout. Jobzitr mitigates this with strict intent-based matching.

Furthermore, inconsistent gig-worker quality is solved with integrated ratings and attendance tracking.

Empower Hiring

Bring kinetic intelligence to the human touch of recruitment. Connect the right talent with the right opportunities seamlessly.

JOB ZITR

The Future of
Recruiting

Empower hiring with your own platform. Connect the right talent with the right opportunities using kinetic intelligence.

BY GKS INFOTECH

Talent Discovery

Skip the noise. Our modules surface high-potential candidates through organic verification and kinetic intelligence.

AI Resume ATS Scoring

Instant parsing and benchmark comparison against role-specific KPIs using our proprietary natural language models.

Match-Score Intelligence

Move beyond keywords. We analyze cultural fit, skill velocity, and trajectory to provide a weighted percentage of success.

Behavior & Scale

DOPE Personality Test

Scientific behavioral assessment mapping candidates to Dove, Owl, Peacock, or Eagle profiles for superior team harmony.

Hybrid Gig Ecosystem

Effortlessly manage full-time hires alongside part-time shifts and gig-economy talent within a single, unified pipeline.

Global Ready

Interfaces and assessments support over 12 major global languages for international hiring.

A Fluid Path to Hiring

- 1. Sign Up:** Create your employer identity.
- 2. Post:** Design high-impact listings.
- 3. Match:** AI surfaces compatible pairings.
- 4. Interview:** Integrated screening environment.
- 5. Hire:** Secure your next growth driver.

"Jobzitr didn't just give us more candidates, it gave us better matches. Our time-to-hire dropped by 40% in just two quarters."

— Aarav Sharma, Talent Ops @ Razorpay

"The DOPE test integration is a game-changer for our internal culture fit. It's hiring with actual insight, not just instincts."

— Meera Iyer, CPO @ Swiggy
