

Proven Institutional Impact

Transforming the academic journey through intelligent automation and human-centric design.

60% Time Reduction

100% Data Isolation

99.8% Accuracy in Verification

"Zitr Enroll transformed our admissions from a chaotic three-month sprint into a streamlined, predictable process. The ROI was immediate."

— Dr. Radhika Nair

Uncompromising Security

Zitr Enroll is built for high-stakes decisions with enterprise-grade protection.

Multi-Tenancy & Data Isolation

- **Logical Isolation:** Database architecture ensures student data never spills across institutions.
- **Enterprise Encryption:** Data is fully secured both at rest and in transit.
- **Role-Based Access:** Granular permissions for staff reviewing applications.

ZITR ENROLL

**Digitize Your Admissions
Lifecycle.**

A comprehensive, multi-tenant
Education OS for universities.

Reduce cycle time by 60%.

Stop Wrestling with Legacy Systems

Modernizing enrollment isn't just about going paperless; it's about creating a frictionless journey for both staff and students.

No More Manual Paperwork

Zitr Solution: Form Builder. Use our drag-and-drop builder to create complex admission forms with conditional logic and document uploads—no code required.

End Scattered Data

Zitr Solution: Centralized CRM. A single, unified command center that eliminates data silos, allowing you to track student progress instantly.

Modular Architecture

Every module is designed with data isolation and efficiency in mind.

Core Modules

- **Student Portal:** A mobile-responsive self-service hub for application tracking.
- **Admin Portal:** The unified command center for university staff to review and manage entries.
- **Merit Lists:** Automated ranking algorithms to generate admission lists seamlessly.
- **Interviews:** Integrated candidate scheduling and evaluation tools.
- **Payments:** Seamless fee collection and automated financial reconciling.

Enrollment Yield Dashboard

Gain real-time insights to prevent applicant drop-offs and forecast yields accurately.

Live Feed Analytics

- **Application Conversion Rates:** Track exact numbers from 'Applied' to 'Verified' to 'Admitted'.
- **Automated Document Verification:** Achieves 99.8% accuracy, drastically reducing staff workload.
- **Automated Notifications:** Keep communication instant. Send status updates automatically so applicants never wait in the dark.
